

Name: \_\_\_\_\_

**Turn in with Lab 2.2.4.4**

Supplement to Lab 2.2.4.4 Lab – Using a Multimeter and a Power Supply Tester:

Step 3: Use the instructions in Step 3 to find the voltages from the following power sources. Use the voltmeter function of the multimeter to find the voltages of the following items. As you find their voltages, record the values in the table below:

<b>Test :</b>	<b>Voltage: (circle type)</b>
A: AA size battery	AC or DC? Voltage _____
B: AAA size battery	AC or DC? Voltage _____
C: C size battery	AC or DC? Voltage _____
D: 9 volt size battery	AC or DC? Voltage _____
E: 9 volt size battery	AC or DC? Voltage _____
F: 9 volt size battery	AC or DC? Voltage _____
G: Power strip outlet	AC or DC? Voltage _____
H: Wall outlet	AC or DC? Voltage _____

What does the acronym for AC mean? \_\_\_\_\_
